Bomb Squad 500ml – Energy, Recovery & Resilience

Instead of targeting a single symptom, Bomb Squad supports the **core physiological systems** that determine how well the body performs, heals, and maintains long-term health.

These systems include:

- **Cellular energy production (mitochondria)**
- **Blood circulation and oxygen delivery**
- **Brain function and mental clarity**
- **Inflammation and recovery**
- **Hydration and electrolyte balance**
- **Stress resilience and nervous system stability**

Bomb Squad® was originally developed to enhance stamina and physical performance in sportsmen by supporting the body's natural production of nitric oxide.

Nitric oxide plays a central role not only in performance, but in overall cardiovascular health. As a potent vasodilator, it relaxes and widens blood vessels, improving blood flow and oxygen delivery throughout the body. This effect reduces vascular resistance, allowing the heart to circulate blood with up to 25% less energy expenditure—translating into greater endurance and reduced cardiac strain.

By easing the workload on the heart and promoting efficient circulation, nitric oxide may represent a key protective mechanism in lowering the risk of cardiovascular events such as heart attacks and strokes, while supporting long-term heart and brain health.

Need to Recover Faster, Perform Harder, and Stay Focused Longer?
Bomb Squad is a cutting-edge micro-liposomal performance elixir engineered for active recovery, clean energy, and cognitive resilience. Powered by a synergistic blend of adaptogens, nootropics, plant-based nitrates, and anti-inflammatories, it helps your body bounce back, adapt under pressure, and stay sharp all day.

Delivered via a next-gen **Targeted Liposomal Delivery System (TDS®)**, Bomb Squad ensures rapid absorption and cellular-level impact—without the crash.

Key Benefits

1. Enhanced Endurance & Circulation

- **Beetroot Extract + Dietary Nitrates** boost nitric oxide production, improving blood flow, oxygen delivery, and cardiovascular performance.
- **Betalains & Betaine** from beetroot help reduce oxidative stress, detoxify the liver, and promote muscular efficiency during endurance efforts.
- **Gene Salt mineral complex & electrolyte Blend** maintains hydration, regulates nerve signals, and sustains muscle contraction during exertion. Combined with Aloe Vera for extended hydration.

2. Clean Energy & Mental Focus

- **MCT Oil** delivers fast-burning, no-crash fuel that supports sustained energy and metabolic flexibility.
 - **Dynamine™ (Methylinerine)** increases alertness and focus within 30 minutes, with none of the jittery side effects of caffeine.
 - **Acetyl-L-Carnitine** supports mitochondrial energy production while enhancing cognitive clarity and fat metabolism.
 - **Rhodiola Rosea** helps reduce physical and mental fatigue, sharpening mental performance under stress.
-

3. Recovery & Inflammation Control

- **Curcuminoids (Turmeric Extract)** reduce systemic inflammation and support joint mobility post-exertion.
- **Ginger Extract + Gingerol** ease muscle soreness, support digestion, and enhance circulation.
- **Magnesium ATP** replenishes cellular energy and reduces post-workout fatigue by enhancing ATP availability.
- **PeakO2® Mushroom Blend** improves oxygen utilization, stamina, and muscle recovery in high-intensity training.

4. Superior Nutrient Absorption

- **Fulvic Acid** improves cellular nutrient uptake, detoxification, and mineral delivery across membranes.
- **Piperine** enhances the bioavailability of curcumin and other actives by up to 200%.
- **Vitamin C + Lemon Extract** protect against oxidative stress and support immune and connective tissue repair.

- Delivered with **TDS® Liposomal Technology (120nm particles)** for:
 - o 20x greater absorption
 - o 92% protection from stomach acid degradation
 - o Targeted delivery to muscle, brain, and liver tissues
-

Train Harder. Recover Faster. Stay Sharp.

Bomb Squad supports your body's natural performance cycle with precision-formulated nutrients:

- **Energy & Focus** – MCT, Dynamine™, Rhodiola, and ALCAR deliver sustained mental and physical energy.
- **Recovery** – Curcumin, Ginger, Magnesium ATP, and PeakO2® accelerate muscle and nerve recovery.
- **Circulation & Endurance** – Beetroot, nitrates, and electrolytes enhance blood flow and hydration.
- **Bioavailability** – Liposomal delivery maximizes nutrient absorption and cellular impact.

Powered by nature. Delivered with science. Trusted by high performers.

Fuel smarter. Recover faster. Perform longer.

Bomb Squad is your all-in-one formula for elite-level resilience and performance, wherever your limits lie.

When Health Shops Should Recommend Bomb Squad

Bomb Squad is appropriate when customers ask for help with:

- “I’m always tired”
- “I need more energy”
- “I feel burned out”
- “My workouts exhaust me”

- “I struggle to concentrate”
- “I feel mentally drained”
- “I need help with focus”

- endurance
- stamina
- pre-workout supplements
- performance improvement

- “My muscles take too long to recover”
- “I’m sore after training”
- “I train often and need faster recovery”

- “I want to improve circulation”
- “I want something for cardiovascular health”
- “I want better oxygen delivery”

- high stress
- mental exhaustion
- adrenal fatigue–type symptoms

- better daily performance
- improved resilience
- optimized health foundations

Who Benefits Most From Bomb Squad

Bomb Squad is especially suitable for:

- Athletes and active individuals
 - Professionals under high stress
 - People experiencing fatigue or burnout
 - Individuals wanting improved focus and productivity
 - Older adults wanting better energy and circulation
 - People wanting faster recovery from exercise
-
